Christina and Fabian Meister

MANUFACTORIES

— *of great* EMOTIONS —

The wedding ring and jewellery manufacturer MEISTER is guided by values that have evolved and matured over three generations. Christina and Fabian Meister elucidate the path between tradition and innovation that the owner-managed family firm has pursued for about 120 years.

As the leading manufacturer of wedding rings and jewellery in Europe we set high demands.

To address these demands, we value great emotions. They set all our values. And they inspire our quest for perfection. We combine incomparable design, high-quality materials, masterful

craftsmanship and innovative high tech on behalf of love. That is the secret of success behind our fascinating wedding ring and jewellery collections.

The heart of our passion beats in these two manufactories.

In Wollerau on Lake Zurich and in Radolfzell on Lake Constance those magical moments come into being, represented by the M in MEISTER Rings. At first glance, the fact that we are operating two manufactories appears to be not very contemporary. But, thanks to the two sites, we can develop onsite solutions tailored to

SECRET OF SUCCESS

TWO LOCATIONS

CENTRES OF COMPETENCE

the specific requirements and various markets. In addition, synergies are thus optimally utilised. All this creates the basis for the perfection that guides us.

Our manufactories are top-class centres of competence.

With the manufactories, we are able to bring together competences that only we have in such concentration and broadness. By this we mean best-trained technicians, gold and platinum smiths, gemstone setters and polishers, all of who create rings with their lifeblood, individually made to the desires of the couple. Virtuosos work for us, who regard their profession as a vocation. The experience and expertise accumulated in our manufactories are of immense value.

Design and craftsmanship combined under one roof.

The manufactories also serve as development laboratories and design studios.

Here, enthusiastic designers continually interpret the language of love anew. When they conceive distinctive collections of rings, nothing is left to chance. Numerous, renowned de-

sign prizes bear witness to how creatively our designers master these challenges, and how they painstakingly strive for the perfect form. It is not just about graceful

details, but also the highest level of wearing comfort.

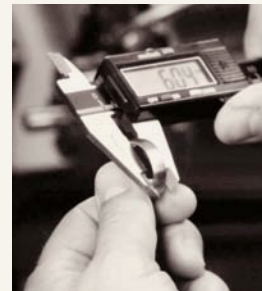

INNOVATIVE DESIGN

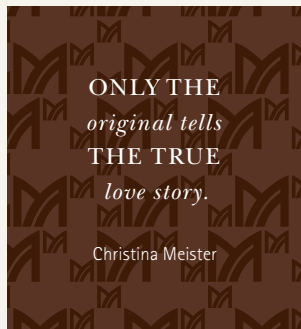

INTEGRATED HIGH TECH

Innovation and tradition form a perfect duet.

In our manufactories, rings emerge that combine crafts developed over generations with the most modern high tech. When forging your happiness, we have a low opinion

of alloys that are simply soldered. Instead, in an elaborate process, we join them together utterly seamlessly. Very modern processes are also extremely helpful, as is exactly the case in respect of the very precise engravings.

Each individual diamond is checked four times.

As the only wedding ring and jewellery manufacturer, we have our own diamond laboratory. Highly qualified gemmologists and diamond experts check each individual stone for the four Cs. That is, only if it meets the highest standards with regard to Carat, Colour, Clarity and Cut does it reach the hands of the various ring specialists.

Real feelings deserve real materials.

Quality begins with high-quality materials! We are absolutely convinced that real feelings can only be expressed with the finest materials. MEISTER rings consist of forged, nickel-free precious metals of the highest hardness. The specially developed and certified alloys underline our uncompromising focus on quality. Copies, which are, unfortunately, circulating in the market, do not reach this quality. The corresponding let down is preprogrammed.

IN-HOUSE DIAMOND LAB

HIGH QUALITY PRECIOUS MATERIALS

WEAR COMFORT

Wear comfort is part of our trademark.

Added to our first class material is the special, soft design of the internal profile of the ring. Together, both guar-

antee the highest degree of wear comfort – for life. The comfortable way in which the ring nestles on your finger is the result of our enormous know-how and a wealth of experience.

**Platinum is the first choice
as a messenger of love.**

Alongside the precious metals of yellow, red and white gold 750, platinum 950 combines many benefits. It is the most precious and purest of all metals and even more dense than gold. Platinum wedding rings are therefore especially durable and a true companion for life. They know virtually no wear and no loss of material. In addition,

tion, they do not fade and, because of their purity, are particularly well tolerated by the skin. They are an excellent support for diamonds and, moreover, bewitching, with a natural, moon-white shimmer that makes the diamonds sparkle at their best.

Perfect quality must still be affordable.

We think that quality is not only there for a few couples! Which is why MEISTER offers a broad range of prices. By choosing the precious metal, size of the stone and number of diamonds, you have the possibility to manage the prices to suit your needs. The new 3D ring configurator from MEISTER displays the current sales price of your self-configured ring in real time. In this way you can find,

**PLATINUM
950**

**BROAD RANGE
OF PRICES**

**SAFE
ORIGIN**

**ENVIRON-
MENTALLY
FRIENDLY**

with certainty, the ring that suits you in every respect.

**Our diamonds come from
conflict-free regions.**

It's only thus that we can meet our customers' high requirements. We work only with reliable partners who guarantee, in writing, the safe origin of the diamonds. In respect of precious metals, we place great value on being able to draw the fine gold from the current stock in circulation wherever possible. We thus sustainably conserve resources and nature will not be unduly burdened by metal mining.

**Sustainability in all
respects is important to us.**

Our world is the world of great emotions. That is a special gift and privilege. And

we wish to return something of this gift to the public – by thinking and, above all, acting in an environmentally aware way. This includes, for example, the CO₂ neutral energy concept in our manufactories. Thus, on the one hand, we conserve resources. On the other, we are committed to our responsibility as a regionally based enterprise.

Our PROMISE TO YOU

since
1897

TRADITION

Founded in Zurich in 1897, the wedding ring and jewellery manufactory is a market leader in Europe. Now in the third generation, this family-owned and managed company creates and manufactures jewellery and ring collections that are a peerless fusion of innovation and tradition.

PASSION

MEISTER is driven by an uncompromising quality mindset – a passion expressed by every piece of jewellery and every ring we produce. A passion that is upheld by our goldsmiths and platinum smiths, jewel setters, gemmologists, polishers and technicians.

EXCELLENCE

The **M** engraved in every piece of jewellery and in every ring is the guarantor of supreme material quality and outstanding workmanship – an aspiration that ensures MEISTER jewellery and rings remain precious items of enduring value.

CRAFTED BY HAND

In the MEISTER manufactory, every piece of jewellery and every ring is individually and painstakingly crafted by hand for our customers. This leads to the creation of unique jewellery and rings that embody the uniqueness and wishes of our customers.

RAW MATERIALS

The certified precious-metal alloys, specially developed for MEISTER, are nickel-free. MEISTER wedding rings are, without exception, all made from forged alloys of the highest hardness. All diamonds originate from conflict-free sources and are examined for their quality in our in-house diamond lab.

DESIGN

Love and life as a source of inspiration: our innovative design team has won many awards for the exceptional jewellery and ring collections they create from the most exquisite materials. Each piece of jewellery becomes a messenger of great feelings and timeless aesthetics.

BRILLIANT — *appearance* —

The wonderful moment of giving! We support you with high-quality packaging, which gives your rings an exceptional appearance. When you buy a MEISTER ring we give you a lovely engagement or wedding ring box. The various compartments are ideal for storing items of jewellery. The box includes an exclusive wedding ring etui, or a small ring box for the engagement ring. The flat, soft ring covers serve for transportation or the perfectly orchestrated handover. The ring box has been created as if for a romantic proposal of marriage.

CERTIFIED — *trust* —

You can unrestrictedly trust in the high quality of the items of jewellery from the House of MEISTER. This is confirmed by our certificate, which we present to you with all our items of jewellery and which provides detailed information about the precious metal and the diamonds in terms of carat, colour and clarity.

ENGRAVINGS *that touch* — you FOREVER —

Immortalise your message of love in your ring. The most modern laser technology, which MEISTER has always been refining, guarantees unique precision. Your phantasies therefore have no limits.

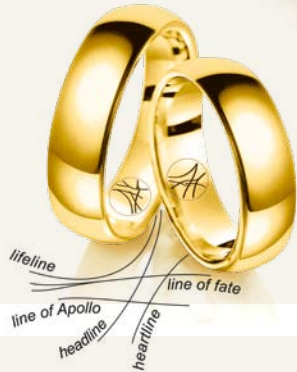

FINGERPRINT

Feel your partner's fingerprint in your ring as a token of love.

HAND LINES

Let yourself be caressed by the lines of your partner's hand, from the lifeline to the line of Apollo.

*Sarah

The way to do it:

ENGAGEMENT AND WEDDING RING AS A DREAM COUPLE

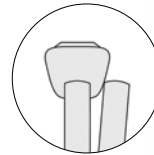

MEISTER

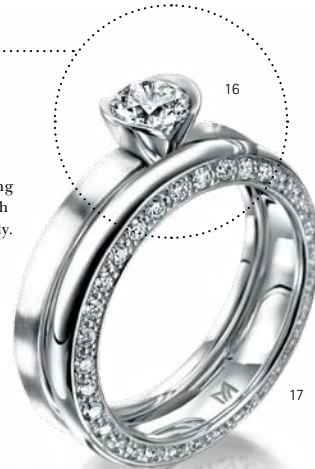

Engagement and wedding rings nestle against each other virtually seamlessly. This leads to the best possible wear comfort.

OTHERS

With engagement and wedding ring that don't fit perfectly together, both wear comfort and look are impaired.

17

THE WAY TO FIND
THE BEST POSSIBLE
ENGAGEMENT RING

①

Think now about tomorrow: MEISTER engagement rings are designed in such a way that they are perfectly suited to your future MEISTER wedding rings and offer best possible wear comfort.

②

Have authenticity and diamond quality confirmed with a certificate.

③

Insist on a lovely, romantic ring packaging that does justice to the wonderful occasion.

④

Recruit your future fiancée's best friend to find out her ring size, style and other preferences.

HOW TO FIND YOUR
DREAM RINGS

- ① When choosing rings, insist on genuine materials. Fakes and cheap metal feel different and look different from rings made from gold and platinum with real diamonds.
- ② Please note that your rings are created in "collaboration" with competent specialists to ensure the highest possible quality.
- ③ Combine your rings online in the 3D Ring Configurator at www.meisterschmuck.com. They will serve you as ideal models for a consultation with a reliable MEISTER partner of your choice.
- ④ Now everything is ready for us to be able to make your individual dream rings especially for you in our manufactory.

WEDDING RING SYSTEM

— Shall we —
COMPOSE
— our own —
HAPPINESS?

Combine your own ring by deciding on the profile, width and surface, precious metal and diamonds in the desired sizes. From this, we will forge your wedding ring in the highest quality of the MEISTER wedding ring manufactory.

PRECIOUS METALS

*Cool sheen or warm gleam?
The whole gamut of colours
of the finest precious metals is
yours to choose from.*

RING PROFILES

*Flat or rounded? The typical
MEISTER ring profiles are
popular and proven. With
guaranteed wearing comfort.*

SURFACES

*Polished or with matte finish?
Sophisticated finishes give a very
personal touch to every pair
of rings.*

DIAMONDS

*Large or small? Magically
sparkling and a sign of
constancy: diamonds as a spe-
cial gift for the radiant bride.*

MEISTER

WHAT YOU NEED TO KNOW ABOUT ETERNITY RINGS

①

Eternity rings are the most beautiful way to transform important events in your life into pieces of jewellery with a personal story – and in this way always carry wonderful memories with you. Whether for a birthday or an anniversary, for achieving a professional or personal milestone, for the birth of a child or simply as an intimate sign of connectedness with a dear person – there are many reasons and occasions to give joy.

②

The stones in the ring you would like to give as a present should be just as valuable as your memories. At MEISTER, all diamonds are certified. With this, we guarantee you that possible subsequent stones will have the same high quality level.

③

If you would like to give a ring as a present for a lifelong companion or to select one for yourself, be sure you don't miss out on the unique wearing comfort of an eternity ring. The perfection in design and form also makes it a piece of jewellery that you never want to go without again.

④

You would like to make giving an eternity ring an unforgettable moment? MEISTER's elegant box gives you many possibilities to stage your surprise in a stylish way – in a bouquet, as a "side dish" at a festive meal, as a "good night" gift...
